The Cotswold Wild Life Park, Gloucestershire

This unusual day out began with a visit to the **Cotswold Wild Life Park**. Here is a gem of a garden to suit all tastes. The park has developed a wide range of planting styles, many of which take advantage of the various microclimates and link with the animal exhibits. The level of gardening is as good as it gets and the planting is always stunning. This is a must-see garden. There is also a narrow-gauge railway for a more relaxing way of viewing the park.
