The well-known speaker, Chelsea Flower show garden designer and ex MD of Hillier's garden Andy McIndoe has opened his own garden at **Sand Hill Farm** for the NGS, and we arranged an afternoon visit in June. Andy himself showed us around his 2-acre garden and provided tea and biscuits at the end.

His garden is around 2 acres in area, a sloping hillside on light, slightly acidic, sandy soil. The planting is naturalistic with a large area of meadow and a wide variety of trees, shrubs and perennials. He is particularly proud of his flowering dogwoods which are a wonderful sight in early summer. The terrace features numerous pots and containers; there is a small gravel garden and two ponds.
